

## Program and output format for PHP Programming BAIL358D

<p>Printed output page Black and white print is okay, and front back when user input, is okay</p> <p>Please use <a href="#"><u>0_3_output_template.php</u></a> (and <a href="#"><u>0_3_output_template.html</u></a> if user input is expected) to generate output, print to pdf, and take print out</p> <p>or</p> <p>use Open/Libre Office's Writer (or Microsoft Office Word)</p> <p>to create docx/odt</p> <p>and include the same fields, in same format as it is in <a href="#"><u>0_3_output_template.php</u></a> (and <a href="#"><u>0_3_output_template.html</u></a>)</p> <p>example:</p> <p style="text-align: right;">USN: YourUSN (right)</p> <p style="text-align: right;">Date: Day Month Year (right)</p> <p style="text-align: center;">PHP Programming BAIL358D (center)</p> <p>Experiment Number. Experiment(also known as problem statement) (left)</p> <p>Output: (center) if you have used <a href="#"><u>0_3_output_template.php</u></a> (and <a href="#"><u>0_3_output_template.html</u></a>) to generate output</p> <p>hence output of form or PHP will be here</p> <p>or</p> <p>if you are using Open/Libre Office's Writer (or Microsoft Office Word) for saving output of program, then include the screen shot (print screen shortcut on keyboard) of Mozilla Firefox with output and then</p> <p>docx/odt → pdf → print out</p>	<p>Ruled</p> <table border="1" style="width: 100%; border-collapse: collapse;"><tr><td style="padding: 5px;">PHP Programming BAIL358D</td></tr><tr><td style="padding: 5px;">Experiment Number. Experiment(also known as problem statement)</td></tr><tr><td style="padding: 5px;">If problem definition expects user input, then only the form element markup of html markup_file_name.extension</td></tr><tr><td style="padding: 5px;">form markup</td></tr><tr><td style="padding: 5px;">PHP Program</td></tr><tr><td style="padding: 5px;">program_name.extension</td></tr><tr><td style="padding: 5px;">program</td></tr><tr><td style="padding: 5px;">If program does not fit on the same page, please use/write the/on the back side blank page, please do not add a new ruled/blank page</td></tr></table> <p style="text-align: center;">back side blank page</p> <p>Continue program on the back side blank page</p>	PHP Programming BAIL358D	Experiment Number.
